OUT PATIENTS CLINICS:
An Out Patients programme requires the patients to attend rehab for an hour and go back to their work or home. We have 8 Out Patients Physiotherapy clinics in Hyderabad city offering wide range of services to improve function and quality of life.

DAY CARE REHAB:
An day care programme requires the patients to stay at rehab for 8 hrs per day, undergo intensive rehab and they go back home in the evening. This facility is good for the people who live in the city at an accessible distance to the centre.

Here they can stay in rehab and exercise at regular intervals with resting facility.

HOME PHYSIOTHERAPY:
We offer home physiotherapy that can deliver customized care in the comfort of your own home. We have team of 30+ Physiotherapists exclusively for home care and deliver our services in the entire Hyderabad.

LOCATIONS:
CURE REHAB AND HOME HEALTH Network provides it services at 8 Out Patient centers and 3 In Patient facilities.

INPATIENT REHABILITATION FACILITY:-

Is a Hospital or part of hospital that provides intensive multi disciplinary rehabilitation program under the supervision of a doctors as well as full time skilled nursing care.

We presently have our inpatient facilities at Asian Hospital Mothanagar, St. Theresa Hospital Sanath Nagar and Aakar Asha Hospital Kukatpally. The unique feature here is having rehab facility at the hospital premises which has great advantage like in any medical emergencies full medical support care team is available in hospital itself which saves time.

The aim of our rehab facility is to provide the client a personalized treatment care plan in a home like environment for their speedy recovery with the dedicated team of professionals and the well equipped Rehab infrastructure helping to bounce back to their regular life with a maximum level of satisfaction both physically and mentally.

TEAM:-

Our team includes physiotherapist, Nurse, occupational therapist, speech therapist, Psychologist, Bedside Care Takers, Physicians, surgeons ext..

CONDITIONS TREATED:-

After a major injury or illness, individual of all ages require expert care, compassion and encouragement to overcome the complex medical, physical, cognitive, vocational and social challenges. Here we deliver our services to the following conditions.

- Post Hip/Knee Replacement
- Brain Injury
- ACL reconstruction Surgery
- Brain Stroke (Paralysis)
- Post Operative Fractures
- Spinal Cord Injury
- Back/Neck pain
- Cerebral Palsy
- Bed Ridden Patients
- Parkinson’s disease

NEED OF THE HOUR FOR REHABILITATION:-

Post Hospitalization rehab services are almost non-existent in India. Presently patients requiring rehab services are either opting for home health services where they hire separately for physiotherapy, nursing, bedside attendants and Doctor which will cost them more and moreover they lack the rehabilitation infrastructure of equipments ext. or prefer staying in hospitals for long period where risk of infections from critically ill patients are high and also expensive. To fill this gap, Cure Rehab & Home Health LLP had started a rehabilitation centre with all services under one roof. This kind of rehab facility greatly benefits the patients and can be called as a transition care or post hospitalisation rehab centre between hospital and home.

Majority of patients requiring rehab services are brain stroke, Spinal cord Disease or Injury, Multiple Trauma, Hip, Knee replacements, post operative fractures.

This Treatment segment is not Organized and Established in Indian Circumstances. This facility is the need of the hour which provides a bridge between hospital and home.

This transition rehab facility gives lot of hope and opportunity for those patients who are bedridden for their rest of their life with various medical ailments.

Give your loved ones to utilize this opportunity and give them better quality of life.

OUR COMMITMENT TO YOU:-

Our commitment is to deliver compassionate care across the healthcare continuum to improve quality of life for persons recovering from or learning to live fully with illness, injury and disability.
